

Safety and Sustainability Policy

Malaga Inc.

Malaga Inc. is committed to protecting the environment as well as the health, safety and welfare of its employees and neighbouring communities.

We seek to integrate sustainable development concerns in our business activities and decisions, through promoting responsible use of natural resources, energy efficiency and waste minimization and re-use.

To achieve these goals, Malaga Inc. commits to the implementation of the following measures:

- Establish and maintain risk-based environmental management and health and safety management systems for each site of operations, including emergency response procedures;
- Train and inform our employees, suppliers and service providers about our environmental and health and safety requirements as well as their responsibility and accountability for ensuring compliance with these requirements;
- Set environmental and health and safety targets;
- Monitor performance and periodically update environmental and health and safety targets;
- Comply with applicable laws and internal standards;
- Report periodically our environmental and health and safety performance to senior management and the board of directors, and report promptly any significant occurrence outside of the normal course of operations;
- Communicate regularly with our employees, communities and governments with respect to environmental and health and safety matters;
- Support community projects.
